C	___	___	___	D	___	___	___

\_\_\_ See continuation sheet.

Verbal Boundary Description: \_\_\_ See continuation sheet.

Beginning at a point located 150 feet due south of a point on the southern edge of Forest Service Road #106 located approximately 2,500 feet southeast of Bench Mark 1323.3, proceed southerly along a line running perpendicular to the dam's principal direction for a distance of 200 feet; thence proceed westerly along a line running parallel to the dam's southern elevation for a distance of 200 feet; thence proceed northerly along a line running perpendicular to the dam's principal direction for a distance of 200 feet; thence proceed easterly along a line running parallel with the dam's northern elevation for a distance of 200 feet to the point of beginning.

Boundary Justification: \_\_\_ See continuation sheet.

This boundary includes all the property historically associated with this resource, including the dam itself, the steps at either end leading to the dam, and the property immediately surrounding the dam site.

## **National Register of Historic Places Continuation Sheet**

Section number 7 Page 1

---

### **Description:**

The Bard Springs Recreation Area is located on Forest Service Road 106 along Blaylock Creek between Blaylock Mountain and Raspberry Mountains in the Cossatot Mountains of Polk County. The Recreation Area has two dams which help to form a horseshoe bend on Blaylock Creek which is the primary water source for the Recreation Area. Dam No. 1 which is on the western side of the recreation area is made of field stone and is approx. 65 ft in length. On both ends of the dam there are steps leading to the dam which serve as a footing for the dam on either bank of Blaylock Creek. The dam has a series of square steps and water chutes which cross the main body of the dam. The dam is approx 8 ft tall in the center and the footings height is relative to the contour of the creek bank.

## National Register of Historic Places Continuation Sheet

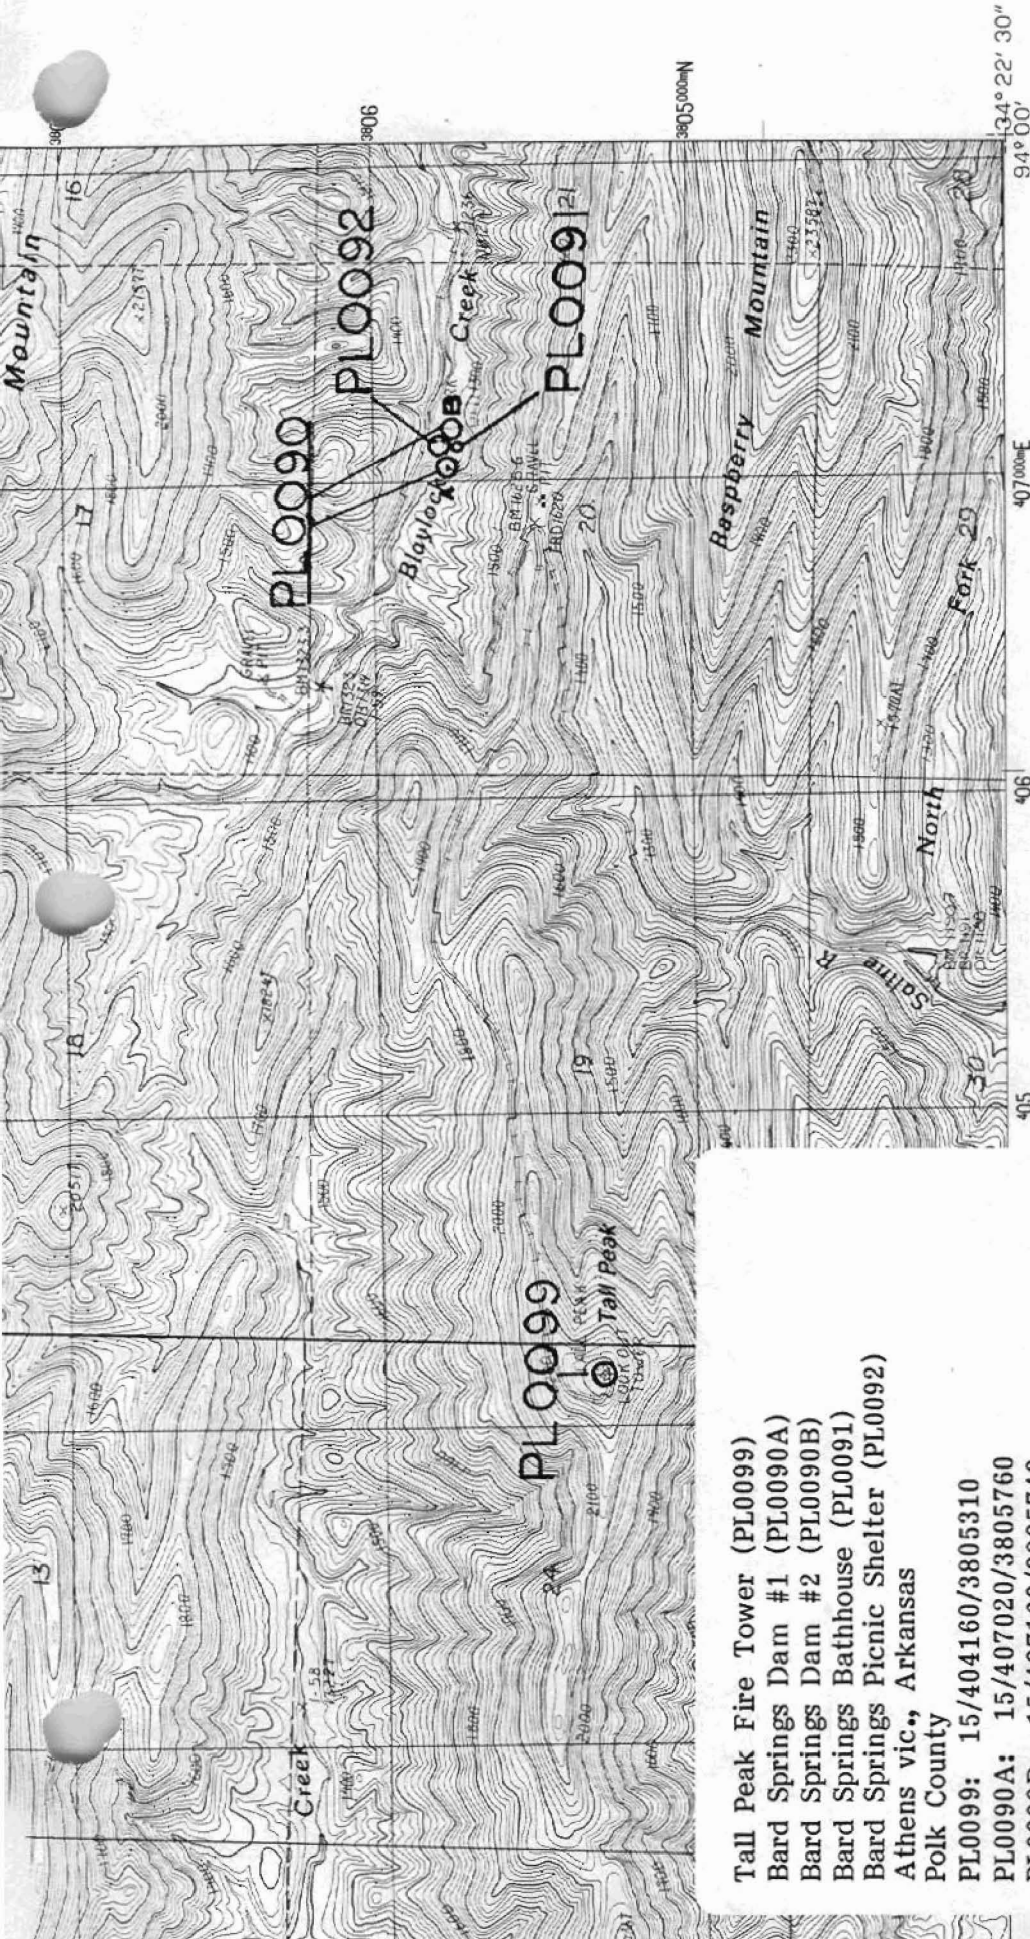

Section number 8 Page 1

---

The Bard Springs Dam #1 was constructed circa 1936 by members of the 742nd Company of the Arkansas CCC District stationed at the Mena Camp that was located approximately eight miles to the northwest, near the small town of Shady. It was constructed as part of a small, public recreational complex within the Ouachita National Forest (ONF) as a result of the CCC's emphasis upon recreational construction that began in earnest circa 1935. The extant historic structures within this complex include this dam, another dam, a bathhouse and a picnic shelter (each of which is nominated separately), all of which allowed the area to function purely as a swimming and picnicking facility, as it continues to do today. As such, the Bard Springs Dam #1 remains significant through its associations with the contributions to American social history made by the Civilian Conservation Corps, its associations with the emphasis upon outdoor recreation that guided such construction, and its status as an excellent example of CCC recreational architecture in a remarkable state of preservation.
