6. Function or Use

Historic: Domestic Sub: Single family dwelling
Current : Domestic Sub: Single family dwelling

7. Description

Architectural Classification:
Craftsman

Materials: foundation Stone roof Composition Shingle
walls Stone other

Describe present and historic physical appearance:

Located on the east side of School Avenue, the William Shaver House was constructed c. 1947 as a single-story, flagstone residence covered by a composition shingle, side gable roof. The plan essentially is rectangular with the exception of a projecting gable-roof porch on the front elevation and rear shed-roof porch. There are no chimneys or outbuildings.

The front, or western, elevation consists of the central front porch that is supported by two square flagstone columns with an elegant elliptical arch in between. The raised, poured concrete floor of the porch is accessed by four concrete steps. A short flagstone wall encircles the porch. A single-leaf entrance is placed in the center of the wall, and a pair of three-over-one wood windows are located to either side of the porch on the main wall of the house.

The northern elevation is fenestrated by two pairs of three-over-one windows, a smaller three-over-one window in the center of the facade and a wood louvered attic vent. All of the windows feature substantial concrete lintels and sills.

The rear, or eastern, elevation has a central porch that is raised considerably. The foundation of the porch is veneered with flagstone to match the house. The shed roof is supported by three simple wood posts. A single-leaf entrance and a pair of three-over-one windows are sheltered by the roof, while a second pair of much shorter three-over-one windows is located to the south of the porch.

The southern elevation is lighted by two pairs of three-over-one windows and contains a matching attic vent; however, it is distinguished from the northern elevation by its single entrance into the basement.

Shaver, William House
Name of Property

Sharp County, Arkansas
County and State

The living room and kitchen have been largely modernized; however, the bedrooms still retain the majority of their original trim.

There are no outbuildings associated with this resource.

8. Statement of Significance

Certifying official has considered the significance of this property in relation to other properties: Local

Applicable National Register Criteria: C

Criteria Considerations (Exceptions): N/A

Areas of Significance: Architecture

Period(s) of Significance: 1947

Significant Dates: 1947

Significant Person(s): N/A

Cultural Affiliation: N/A

Architect/Builder: Roy Lee Johnson

State significance of property, and justify criteria, criteria considerations, and areas and period of significance noted above:

The Shaver House was constructed by Roy Lee Johnson around 1947 for William and Mary Shaver. The land along School Avenue in this area had previously been "tied up" in an estate and was not available for development until the 1940s. Like the Carter House, the Shaver House was built for working class workers rather than business owners. The Shaver House shares many construction details with the Carter House too, as they were constructed by the same builder, Roy Lee Johnson.

The William Shaver House is being nominated as an amendment to the "Historic and Architectural Resource of Hardy, Arkansas" multiple-property nomination under Criterion C with local significance as a largely unaltered example of a late 1940s flagstone-constructed residence and, as such, an important link to the historic vernacular building practices of this Sharp County town.

Shaver, William House
Name of Property

Sharp County, Arkansas
County and State

9. Major Bibliographical References

Information submitted by Dr. Audrey Thompson, Williford, Arkansas, 1997.

Information submitted by William and Mary Shaver, Hardy, Arkansas, 1997.

Previous documentation on file (NPS):

- preliminary determination of individual listing (36 CFR 67) has been requested.
- previously listed in the National Register
- previously determined eligible by the National Register
- designated a National Historic Landmark
- recorded by Historic American Buildings Survey #
- recorded by Historic American Engineering Record #
